Whatscript

Receive and manage your monthly chronic medication list via a Whatsapp link from  Whatscript and place your order at your Van Heerden Pharmacy.

HOW DOES IT WORK?

* This service is for chronic repeatable scripts only

* The link is sent 3 to 5 days prior to collect / delivery due date

* Collection or delivery date will be available 3 days after order placement

* You will receive a follow up Whatsapp message when your order is out for delivery or ready for collection.

This Whatsapp process is a dedicated system for the chronic repeatable medication service and does not replace the normal acute orders via the pharmacy's Whatsapp number.
